

AUS DIATOMACEOUS EARTH

Applications

POULTRY

PEST
MANAGEMENT

HORTICULTURE &
AGRICULTURE

ODOUR CONTROL

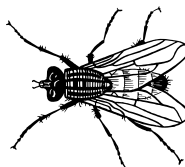

Benefits

Protect & promote
plant growth

Improve poultry
health & Yield

Pest & Disease
Resistance

Encourages beneficial
microbial soil activity

What is Diatomaceous Earth

West Australian Freshwater **HUDSON DE**, made from fossilized diatoms (algae), formed across millions of years. Our 100% natural DE has a soft chalky rock like substance look. A multitude of uses it can be dusted, sprinkled, raked, mixed with water and sprayed over plants, the house, chook pens and garden

Order and Trials

Our DE is cost competitive & direct from the source.

Trial options to see the benefits of DE are available.
